

## MANY MINERS IN GOLDFIELD CAMP

Over Eight Hundred Employed by Mines, Mills, Railroads, Samplers.

## GOOD PLACE FOR WORK

Men Are Mostly Americans and Have Homes and Families in District.

Special to The Tribune.

GOLDFIELD, Nev., March 3.—A material increase in mining activity in the Goldfield district over that of a year ago is indicated in convincing manner by the number of men employed in and about the mines of the camp. A none too comprehensive canvass of the companies operating, reliable as far as it goes, shows that approximately 835 men are on the payrolls of the mining companies and the one sampler, operated by the Western Ore Purchasing company.

This is a considerably larger number of men than were employed in the district a year ago and it is practically certain that the total will be largely increased during the next few months, as a number of the companies that are now devoting their efforts to dead work or shaft sinking will soon reach the point where lateral development, with consequent additional working room, will require the services of more men.

## Forces of Big Mines.

Of the total mentioned, the Consolidated Mines company has at the present time 231 men on its payroll. Of this number, about eighty-five are employed in connection with the mill and a few others on the railroad and in the chemical laboratory and samplers. More than 500 whose work is underground or in connection with ore production. At least ten of the other mining companies will without doubt increase their working forces during the present season.

The Goldfield Merger Mines company is now employing on an average sixty men, the Jumbo Extension company is eighty-two, and the remainder is made up by the Florence, Goldfield, C. D. Consolidated, Goldfield Ore, Sandstorm-Kendall Consolidated, New Jersey Mines company, Nevada Eagle, Silver Pick Consolidated, Booth, Blue Bull, Lone Star Consolidated, Vernal, Diamondfield, Black Butte, Goldfield Mining & Ore Reduction company, Goldfield Belmont, and a few outside or independent properties and leases. Those most likely to increase their forces are the Florence, Goldfield, Goldfield, Silver Pick, Blue Bull and Vernal.

## High Scale of Wages.

On most of these properties the work performed up to this time has been dead work or preparatory work, but in several instances a point has now been reached where lateral development will be carried on, with favorable chances for opening ore bodies that can be mined profitably. As a result, the work is confined to the sinking of a shaft, and in this district are excellent for the miners, with the highest wage scale in the country. The approved scale of wages in use in the mines. The miners are of the best type of men employed in this work, almost all of them Americans and most of them with their families and homes in the camp.

## LEGAL PROBLEM PUT UP TO HIGH COURT

The intricate question of whether the corporation tax may be collected from mining corporations on the proceeds received from the sale of minerals mined has been laid before the supreme court of the United States for solution. The eighth circuit court of appeals, in the suit over the collection of the tax from Stratton's Independence, Limited, a gold mine in Colorado, was uncertain as to the law and certified the case to the supreme court—Mining Service.

## FEBRUARY WAS BAD MONTH FOR ELY CAMP

Judging from reports, February was a very cold month at Ely, with a weather record that was reached during the middle of last week. This may have been a factor upon the copper production of the Nevada Consolidated company, keeping it down below that of January. It was the shortest month also, and two holidays were celebrated.

## A Physician's Fath in Eckman's Alternative

A Valuable Remedy for Throat and Lungs

"Have used Eckman's Alternative in several cases of tubercular glands of the neck with excellent results. In one case it cost me \$50, for the girl was operated on, and in a short time an operation was not needed. Suppose your records are just as fine as mine. You know my faith in it."

(Original of this physician's letter on file.)

Eckman's Alternative is effective in other forms. Read what Idaho Falls, Idaho, says:

"Gentlemen: I have gained twenty-two pounds since last February and my baby is in perfect health. I have been waiting since she was born to see how I would get along. I am now doing all my work, have been ever since she was four weeks old, and I am steadily gaining. I do not cough or raise anything at all. I believe my lung trouble is cured."

(Signed) Mrs. M. H. GARVIN.

Note—Mrs. Garvin has seven children. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Schramm-Johnson, Drugs, The Never-Substitutors, Five (5) Good Stores, and other leading druggists. Ask for booklet telling of recoveries. Write to Eckman Laboratory, Philadelphia, Pa., for additional evidence. (Advertisement.)
